The count of systems offering local origination and leased access cable channels is underinclusive. If a program or industry guide specifically referred to "local origination" or "leased access," such references were logged under tallies for those generic categories in the "Local/Regional" section at the beginning of each convergence market's cable chart. Many locally originated cable programs, however, were listed by their specific titles in the program guides consulted by Media General's researchers. These programs were then listed in the cable charts under the program titles. Nonetheless, these shows usually represent "local origination" or "leased access" programming, even though they were charted separately and not included in the totals listed above.

² According to FCC Form **346** (Section III, Question **4)** on file with the FCC.

³ The overall number of Class **A** Stations increased in 2002 because the FCC granted the pending application for Class **A** status for WRMD-LP, Tampa, Florida. The overall number of Non-Class **A** LPTV stations decreased by two because **of** the reclassification of WRMD-LP as a Class **A** Station and the reclassification of a LPTV station, W60CE, Sebring, FL, as listed **in** Media General's *2001 Proceeding*, as a TV Translator in these comments.
